7. It will be seen from the Amildar's report of 5-2-24 that the lands dry assessment instead of wet was fixed up in question the lands and compensation amount settled at Rs 50/- per acre, though the amount was not actually paid. The compensation payable is Rs ~~263~~ 223-7-0. It is also seen from the records that service in the temple has been stopped ever since the lands were acquired. The jodidars of the Holalé village have given a Mutchalika to the effect that half-yearly interest at 6¼% may be paid on the compensation amount for the conduct of service in the temples concerned.

25/2/26 It is stated, from the Bettmangala Supt's letter, (H C), & from the P.W.D. Secy's Submission note (H B), that the lands in question were converted into dry consequent to their being taken up for Bettmangala catchment. In the Amildar's report (H E) also, that as the tank under which these lands were wet, was taken up for the K.C.F. water supply, the water-supply to these lands was cut off & the lands were converted into dry. I believe that in the case of the Bettmangala water-supply acquisition, it was not the wet land that was acquired, but it was the water-supply to the wet lands. The compensation was for the cutting off of the water-supply & making the lands dry.

10. In this case, it is stated, a sum of Rs 223-7-0 was settled as compensation, but not paid, as the lands were minor service Inam lands, & as only lands were allottable in exchange. No suitable lands could be f & Sanction of Govt for the payment of the sai sum for the maintenance of the institut
